SECURITY CAGES

Mini and Maxi Cages provide a secure storage solution for both indoor and outdoor use. Security Cages are suitable for safely storing gas bottles, hazardous materials, and valuable plant machinery.

Maxi Cages are available in 5 standard sizes but can be modified to suit your specific application. All Cages come with a pad-lockable single or double door and a mesh roof as standard. Fixings supplied. Expamet (Expanded Metal) options are available.

Mesh aperture: 50 x 50mm

High quality powder coated finish is available in Grey RAL 7037 as standard, although other colours and hot-dipped galvanised finish (for outdoor use) are also available upon request.

Shelving is available for Mini Cages (P.O.A.)

- Create secure areas with no fuss or hassle
- High quality finish in powder coated in grey RAL7037
- Wide range of sizes to meet your requirements
- Secure mesh panels - 50 x 50mm aperture
- Doors come with facility to fit a padlock (padlock not supplied)

CAELUM MODULAR MESH PARTITIONING

Caelum is a flexible system that can be used to build enclosures, boxes, storage units, and provide protection in automated warehouses.

It is particularly useful in bonded stores, low-level and semi-secure storage areas, and for small cage enclosures where high value retail goods (i.e. Smart phones, mobile telephones, tablets, laptops, computers, power tools, liquor, tobacco, etc.) are stored. A variety of additional features such as digital locks (pricing available upon application) provide increased security for high-value goods areas.

Caelum is available in multi-tiered elevations enabling the end user to partition off large secure storage areas within warehouse environments, particularly useful for isolating and storing dangerous goods such as aerosols or combustible materials.

The Caelum Mesh Wall system is available in a variety of powder-coated finishes, or hot dip galvanised (for outdoor use).
